

# 50th Earth Day Observance with Global Religious and Indigenous Leaders

In 1970 the first Earth Day ushered in a new environmental consciousness and a wave of environmental laws. 50 years later we are fighting to protect our climate and our future. Many leaders on the front lines can be found in religious and indigenous communities.

On this 50th Anniversary of Earth Day, join us for a global observance including:

- Earth Day blessings from leaders around the world
- A forward looking message from youth climate activists

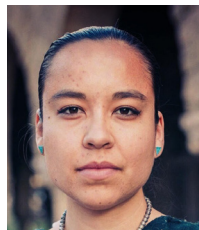

And a dynamic global conversation featuring:
